

Fateme Ghalandari

Software Developer — Hamilton, Ontario

+1 (365) 883 6585 | Fghalandarii@gmail.com | GitHub | portfolio | LinkedIn

SUMMARY

Software developer with more than 4 years of experience, co-founding Simor.co, an AI startup. Proficient in TypeScript, Python, RESTful API design, and DevOps tools like Docker and GitHub Actions. Worked closely with product and QA teams to deliver maintainable, high-quality code and eager to expand into C#/.NET development.

SKILLS

Languages: TypeScript, JavaScript, Python

Back End & APIs: Node.js, FastAPI, Python, REST API

Databases: PostgreSQL, MongoDB, SQL

CI/CD & DevOps: Git, GitHub Actions, Docker, Linux, Agile/Scrum

Testing: Jest, React Testing Library, Playwright

Frontend & Mobile: React, Next.js, React Native, Vite, Tailwind CSS, WordPress

WORK EXPERIENCE

Simor.co | Remote, Canada

Co-founder & Software Developer | Jan 2025 – Present

- Build Next.js frontend and Node.js endpoints for MVP with iterative feedback loops.
- Lead sprint planning, own key components, and review peers to unblock releases.
- Optimize performance using route-level code splitting and image optimization for faster page loads.

TELUS International AI | Remote, Canada

AI Quality Analyst | Feb 2025 - Present

- Evaluate and annotate web content to improve search relevance and user experience for large-scale platforms.
- Review results against guidelines; surface usability issues and edge cases to enhance model quality.

Freelance | Tehran, Iran

Software developer | Feb 2024 - Jul 2024

- Refactored TypeScript codebases for modularity and performance using route-level splits.
- Integrated REST APIs with resilient client-side error handling and retry logic.

Estarbad | Tehran, Iran

Software developer | Aug 2021 - Dec 2023

- Maintained and enhanced 10+ React/React Native apps; raised reliability with component-level tests and CI checks.
- Coordinated with designers and back-end teams to align API contracts, reducing integration rework across releases.
- Streamlined Git peer reviews and hotfix workflows to improve release cadence and production stability.

PROJECTS

Skillmate | React.js, Tailwind CSS, Vite, FastAPI, OpenRouter | github.com/FatemeGhalandari/skillmate

AI-powered web app that turns YouTube videos into interactive mini-courses and custom flashcards using LLMs.

Beautyness | React.js, Tailwind CSS, and Vite | github.com/FatemeGhalandari/Beautyness

Responsive beauty-and-body-care website built with a modern frontend stack emphasizing UI speed and design consistency.

EDUCATION

Bachelor of Science in Computer Engineering

Iran University of Science and Technology, Tehran, Iran

Sep 2016 - Mar 2021
